- This is the second class I've taken with Dr. Hannah and I'd take many more if I could he is fantastic and makes an online course very worth while.
- Dr. Hannah's lectures were always very clear. He always included graphics and extra articles to further our understanding of the topics.
- Very unbiased teacher, helped us fully think think out the political process
- The commentary on my first assignments gave me confidence for the remaining assignments, letting me know that I was on the right track made me excited to do more of the questions.
- very effective, i feel that i have learned a lot from this course.
- some of the questions were confusing but when I asked for assistance I got it
- In this regard Dr. Hannah was outstanding. Politics is a tough subject and in discussion someone will be offended, Dr. Hannah handles topics very well and never came off as having an agenda. AWESOME!!!
- Did a great job on technical information.
- I really liked this class and how it was presented, the lectures and supporting materials were relevant and well put together. This class really made me re-analyze what has happened to American politics over time and gave an explanation of how we got to this point. I wish it was mandatory for all citizens to retake some kind of government refresher class. All in all, great class.
- He did a really good job and the lecture and readings really made the assignments easy to follow. Dr. Hannah's class is always fun to take.
- I have taught online since 2004 and have taken many online classes associated with my doctoral work. Dr. Hannah's use of podcasts and video lectures was an improvement on the text-based courses to which I am accustomed. The videos included excellent data and related materials and the podcasts were informative. His assignments required critical thinking and were challenging.
- He provided a a lot of materials to supplement the lessons and his lectures which were very clear and helpful.
- Some of the due dates were off in the assignment documents and there was confusion over specific timetables for certain assignments. The professor wasn't harsh about due dates though, however it would have been nice to have more concrete times established early on.
- Dr. Hannah not only laid out expectations. He sent feedback that was instrumental in me learning the material. I've never met a teacher that cared more about their craft.
- During this class I learned lot and found this subject to be extremely interesting and wish to take more classes like this in future. Dr. Hannah explained things very well and made the class think about the topic at hand.

9 - Did the organization of the course content work well in the online format? Please give specific examples consistent with your response.

Alfred Hannah

- Wright State has one of the best online formats I've ever seen and I've been though three different online institutions. Its too bad WSU offers very little online degrees. I highly suggest in getting more programs with online options. I enjoyed all the lectures and podcasts. I liked how the homework and responses directly came out of the lectures and podcasts and
- Yes I think it worked really well as an online format. Everything was split up into nice individual sections and you always knew what was due when. There was never too much work in one section, they were all pretty equal.
- OH YEAH
- Yes, I think having podcasts and lectures were great for the class. I also liked the organization of the online questions.
- yes he did. everything was easy to find.
- Yes
- yes
- Best format I have had yet. The modules are effective reasonable assignments.
- Great use of podcast and reading material.
- Only thing, maybe in the contents section of pilot, along with the lectures, put the readings that are required for that week so people don't have to go back and look at the syllabus again and again... unless that was your plan all long... if it was, well played sir.
- Yes it did. I enjoyed having the ability to work on the class while I was traveling the country and on holiday during the 4th of July week and summer months.
- I like the personalization of the lecture material via the video lectures. The podcasts and readings outside of the text enhanced the material. I think this would be a good in-person class, but likely more stressful given the subject of political polarization. Having video lectures reduced the feelings of isolation often associated with online learning, and Dr. Hannah was helpful, understanding, and flexible, which was great.
- Yes it did work well. The lectures and readings were very helpful.
- Yes, the weekly assignment put into a word document was easy to follow along with as well as all the information revenant to homework.
- Yes, it was well thought out. It also was enough time to complete the case load with ease. He had us read different chapters and write responses to his podcasts with other experts in their field. Also he had lectures that he had papers attached to. They were well devised and great to navigate.
- yes it did. I loved the way this was set up.

10 - Please comment further on any of the items which you were asked about in this evaluation.

Alfred Hannah

- Great course and great online format. WSU really needs to get more degrees with an online option. I am being forced to transfer to another school that offers an online option because I had to take a full time job.
- I REALLY liked this class with Dr. Hannah. I feel like I learned a lot and would take more classes with him. It also helped that his dog made frequent appearances :)
- GET THIS GUY A NEW PAYCHECK
- I'm sure you thought it through when you put timestamps on some questions for the podcast responses, but I think it made me want to skip to that section of the podcast instead of listening to all of it (like in the lecture).
- I loved Dr. Hannah's course. I would take it again and I would definitely recommend.
- Very good professor and very interesting class!
- Dr. Hannah did a great job with this course. He has earned my admiration and respect.
- Very good and helpful professor
- Dr. Hannah is one of the greatest teachers I've ever had.
